LECTURE BY HON. K. P. BATTLE.—This talented gentleman, the President of the State University, will this evening lecture at Commons Hall, on the relations of the University to practical men. His largeness of thought, grasp of idea and elegance of diction render his lectures truly delightful, and this one, upon such a topic will be doubly interesting.

Public taxes	1,419.55
Special "	1,322.79
Total	$2,753 34
A. H. Paddison, Pender:	
Public taxes	1,846.62
Special "	1,676,33
Total	$3,522.95
J. J. Nowell, Wake:	
Public taxes	14,960.74
Special "	10,327.35
Total	$25,288 09

Wake leads all the counties in the amount of her taxes. Of the special taxes paid in, $6,196.41 go to the support of the D. D. & B, and Insane Asylum; while $4,130.94 are for the erection of the Penitentiary and support of convicts. Wake pays more than twenty-five times as much tax as some counties in the state.

THE SKATING RING.—To-morrow evening the sport of roller-skating, once so popular here will be brought out, at the great hall over Dodd's store, Wilmington and Martin streets. The floor is 130 feet long and 30 feet wide, and has been made perfectly smooth by polishing and planing. The hall is elegant, and will be fitted up with seats. There is no more delightful sport than roller skating, and young and old participate in its healthful fun. The rink will open at 7½ o'clock, and an admission fee of 25 cents for the evening will be charged. There is no charge for skates.

DESTROYING FISH WITH DYNAMITE.—A gentleman informed a reporter yesterday that on Haw River persons were destroying great numbers of fish by the explosion of charges of dynamite in the river. The mode of procedure is to bait a portion of the river so as to lure the fish thereto, and under the bait to put a cartridge of dynamite, which is one of the most powerful explosives known. When the fish are gathered together, the cartridge is exploded, and the force of the concussion kills all the fish, both great and small. These rise to the surface and are taken. This mode of killing fish is reprehensible, as all are killed, the old fish and the fry and it should be put a stop to.

THE FIRE CISTERNS.—The contract for building the five fire cisterns which was recently ordered by the Board of Aldermen, has been awarded Messrs. Whitelaw and Campbell, who will do the work both speedily and well. The cisterns are to be constructed of granite, will be ablong in shape, and in size 12 feet deep, 10 feet wide, and 36 feet long. Each will contain 30,000 gallons of water, and will be built with two main holes for admission of hose. These cisterns were contracted for at $850 each They will be built in 90 days, perhaps earlier. The chief of the Fire Department located them at the following places in the city, at intersections of North and Blount streets, Newberne and Bloodworth, Salisbury and Lenoir, Hillsboro and Harrington, Person and Davie. These situations are in all respects admirable, and just at the points where they are needed.

MUSICAL.—The 'Staunton Vindicator' of the 24th inst has the following in regard to the Mendelssohn Quintette Club Concert in that place.

"There was hardly more thing room at the Town Hall last night, though each seat was a reserved one. There were twenty-one of the audience seated on the stage. The performance of the Mendelssohn Quintette was fully worthy of such an ovation, and the encores frequent."

Two concerts will be given in Raleigh Monday and Tuesday evenings next. This entertainment promises to be a rare musical treat, and as it is for part benefit of the Young Mens Christian Association we bespeak a crowded house here each night.

Tickets for sale at Mr. Ennis' book store where diagram of the Hall may be found. Reserved seats, $1,00 each, others 50 and 75 cents.

SERMON BY REV. DR. THOS. E. SKINNER.—This evening, at 7.30 o'clock, this divine will deliver a sermon at the Salisbury Street Baptist Church.

Sins Against Health.

There are a good many reasons which may help to explain what is, at first sight, the extraordinary fact that bodily health is only just coming to take a first place among the objects of a reasonable man's interest. Of course the methods of healing sickness have always attracted a large measure of attention, because downright sickness is disabling in a way that is too plain and irresistable to be overlooked. Everybody will do his best to get rid of pain when it is on him. But the conception of health is something much more than the absence of a prostrating or umistakable disagreeable malady is considerably slower in making way. When Lord Stanley talks about health being "the state in which existence itself is felt to be an enjoyment in which all simple and natural pleasures are appreciated, and the little every day anxieties of our business sit lightly upon us," his definition seems a mere common place truism. Nobody could reasonably maintain that health is anything short of this. But there are uncommonly few people that in practice, they make the attainment of this blessed state such an object as they unquestionably would if they fully ealized its blessedness. Theoretically, we pray for health as the best gift which the gods have to bestow; but when the matter is left in our own hands there is a hundred other goods we never hesitate about silently preferring. It is rather startling to think how few persons one knows who do not habitually sacrifice health for some other advantage confessedly worth less having. And not the least startling thing is that the few who have had the sense to make health really thier first aim are not seldom the dullest blockheads in the choice of all other aims. At the universities, for example, and among the best sets of young men in the larger cities, the men of muscle are not commonly the men of brain. There are more exceptions than there used to be, it is true; but the hard reading man as a rule still too generally contents himself with that miserable and delusive form of exercise, a "constitutional."

DAILY NEWS

THURSDAY, JANUARY ..... 30, 1879.

JOHN B, HUSSEY, - Editor.

HUSSEY & JORDAN, - Pro's.

Wilmington's Respectful Request.

The General Assembly are earnestly petitioned by the press and people of the chief city of North Carolina to refuse the Raleigh & Augusta Air Line permission to extend that road to Charlotte.

They say and say truly that such permission once granted will be used to establish a trade channel in every phase of its make-up inimical to their most vital interests. Their city is just now developing an important commerce with Europe—a commerce having for its chief support the freights of the Carolina Central Railroad. The building, in great part, of this highway is the principal return by the State to the Cape Fear people for their uniform liberality of half a century towards all other sections.

It seems but plain justice to protect them in the exclusive and unchallenged enjoyment of this. Neither native nor alien Ahabs should be flattered with a gleam of hope that the vineyard of our generous Naboth can be coveted with success.

That Norfolk would get much trade at the expense of Wilmington, if this charter is granted, will hardly be denied, and we are unadvised of any advantages, which are likely to follow the grant, that would serve as a set-off to this certain loss. But this is only half the argument. The N. C. Railroad is now leased to the R. & D. Road for a term of years for a price equal to about six per cent. on the original cost. It is true that the construction bondholders receive the State's part of this money, or at least the most of it; but, inasmuch as the road was built with their money, no fault ought to be found with this. In this way the State is paying the interest on a part of her debt. Does it seem sensible to strengthen the only competitor, which the R. & D. Railroad can have, thereby lessening its capacity to meet its payment to the State promptly? We have no hostility to the R. & A. Air Line because it is owned chiefly by non-residents of the State. We wish it a peaceful journey to Georgia and by an air line. Our geography is sadly at fault if the city of Charlotte is in that line.

If the *pros* and *cons* were even, our vote should be cast for Wilmington. That fine old town ought not to be refused a reasonable request at the hands of any representative body of North Carolinians and such we believe the present Assembly to be.

Home Protection.

The wholesale liquor dealers of the State will assemble in this city on the 4th of February to urge upon the Legislature the importance of some protective legislation in behalf of that interest. They claim that they are not on an equal footing with dealers outside the State.

The small tax imposed on foreign liquor dealers, they claim, is in effect a discrimination against them. Outside dealers, by the payment of a license tax of $50, enjoy all the privileges of the home dealer, who, in addition to this tax pays a purchase tax, a tax upon his sales, a corporation tax and an advalorem tax. The NEWS is unqualifiedly committed to any policy that will afford to home dealers protection.

Our merchants and dealers, by concert of action and intelligent direction, can, in our opinion, make out a case that will command the approval of the Legislature

We shall welcome the wholesale liquor dealers of the State to our city and trust that their coming together may result in remedying the evil complained of.

Which one Owns Us?

Raleigh will be only a way station between Norfolk and Charlotte so far as Western freights are concerned, if the R. & A. Air Line get leave to extend from Hamlet.

It is well enough to have two lines of travel to the West, but this we at present enjoy. It is falacious to regard the increased competition which is promised in the light of a blessing. Richmond is now building up at our expense by reason of the switch-off at Greensboro and our representatives are cooly asked to build up Norfolk by allowing a foreign line to enter Charlotte.

We have the miserable and unmanly satisfaction to know that our subjection to Richmond is in part paid for in the lease of the N. C. R. R., which yields a quarter of a million dollars a year. Norfolk would have us don our hat without getting the customary shilling. We are fallen, but perhaps not so low as this.

The Plague in Europe.

The Russians have waked up to the discovery that the plague is among the trophies they brought home from their campaign against the Turks, and there is much alarm in all western Europe. The disease first made its appearance in the Southern province of Astrakhan, on the Caspian sea, and has rapidly advanced up the valley of the Volga to Nishni-Novgorod, in the heart of the empire, and but a little east of Moscow. It comes upon a people weakened by war and famine, with the number of physicians reduced one-third by the conflict with Turkey and the typhoid fever that followed it, and with very inadequate sanitary regulations. It was neglected at first, too, till it has acquired such malignity as to carry off 90 per cent of those it attacks. The governments of Russia, Germany and Austro-Hungary have but recently taken strong measures against it. Should it further increase, however, Germany will establish a military cordon of 80,000 men on her frontier. The international Sanitary Commission have sent doctors to study the disease and adopted a pretty strict quarantine. The plague has not appeared in Europe before since 1841, but the terrible desolation it has caused in past centuries—its victims numbering 25,000,000—naturally excites alarm and justifies every precaution. Though it is one of the great historic scourges of mankind, the proper treatment of it is hardly so well understood as that of yellow fever, and as a rule it kills whomever it hits when it has become epidemic.

SAID a Solon to a constituent at the capitol yesterday:

"Yes, there is no difference here as to the propriety of retrenchment. The question is the *amount*, you know. It is easy to gain public favor, you know, by voting for every proposition of reduction, just or unjust. Continued the eloquent "man of the people," it is easy to drift in the favoring gale to the haven of a cheap popularity, you know. You see I want to limit the scale of reduction so that the public service will not be impaired. You see it won't do to cripple the public service. You must tell the people so when you get back. Who wants to go back to the times of the North American Indian when the Government cost nothing. The true test is to see that she pays honestly such sums as will secure efficient service. That's all there is in the retrenchment movement and you can say so and give me authority. The constituent turned away sorrowfully. Soon afterwards he was seen in animated conversation with another member, clad in homemade jeans. A smile was visible on his manly, honest face as the member said: "Yes, sir; the people must and shall have relief. This Legislature will hack into salaries and cut down expenses until our taxes are lowered."

CHARLOTTE is the county seat of Mecklenburg, where the old Scotch Irishmen first took the oath to stand by their brethren of the Cape Fear in resisting unjust foreign legislation. Virginia was then, as now, favored at the expense of this people and was a pet of the crown, but the Charlotte of that day led North Carolina in a rebellion against unjust commercial restrictions, for unless history lies, the tea tariff started the fight. Will she do less now, despite the false hope held out that a pool on cotton formed by three Railroad companies is better than a pool framed by two of the same sort of soulless syndics. We use syndics in the French sense, which is a bankrupts creditor, who manages his property.

THE Senator from Rowan writes us that we were mistaken in saying yesterday that his bill in regard to the Criminal Jurisdiction of Magistrates was indefinitely postponed in the Senate on motion of Mr. Caldwell of Guilford.

Our reporter is the one at fault. It was another bill of the same general import with Mr. Henderson's to which he referred.

Mr. Henderson is sanguine that his bill will pass the House without material amendment and thinks a contrary course on the part of the House would be obstructing the demands of the people.

Having only yesterday given some of the many reasons why this bill should not pass in its present shape the NEWS has no further comment at present.

NOTICE is elsewhere given of the intention of a number of citizens of West Wake and East Chatham to ask the Legislature to form that section into a new county. By request we state the proposed boundaries: Beginning at the Chatham and Harnett line on the Cape Fear river, thence to the Haw river, and up said river to New Hope in the Orange line, then in the direction of Morrisville, or thereabouts, thence to the corner of Middle Creek and Panther Branch townships in the Wake and Harnett line, thence straight to the beginning.

An odd fancy for a short name prompts these people to call their proposed county Ball or Tally. They also suggest West Wake, which is better.

"NO ONE wanted to vote against a measure for the benefit of the soldiers" is what passed the pension bill, says a Washington correspondent. That is the disgrace of it. It is time for the politicians to get over catering to the soldier vote at the expense of public interest. The President has signed the bill, but the appropriation must be made before the law can be executed. This will give Congressmen who voted for the bill—many of them somewhat thoughtlessly, no doubt—another chance to express themselves by ballot against it, now that they have heard from the people on the subject.

WE publish elsewhere a letter from a leading citizen of Virginia, in which he labors to prove that there is now a good opportunity for our tax-payers to save $67.500 a year by funding the so-called construction bonds of the N. C. R. R. in new State bonds, bearing five per cent. interest One may by reading this article learn how sweetly fit the "figures that never lie," when a man is thoroughly determined to save a State and that State not his own. The Charlotte Observer in an article on the State debt adverts to the same subject, though it does not adopt our view of it.

MR. ATKINSON is opposed to further codification of the laws!

Only four years ago $19,000 had been spent in getting up Battles Revisal and he thought there was no especial need to go to press till the proof of that much mutilated "copy" was finally corrected. The House took the same view.

THE Westward movement of population, which has been the marked feature of the past year, has done much to relieve the East of the pressure felt for some years, and when it is realized to what extent this movement has gone it will be readily understood why times are better. The Commissioner of the Land office, in his annual report, states that the sales of public lands last year were twice what they were the year previous; in other words, the number of acres was 4,223,767 greater, the whole number sold being 14,000,000.

WESTERN members in voting away the rights of Wilmington should stop to consider the fact that in 1875, certain gentlemen in that city voluntarily bought three miles of iron for the W. N. C. R. R. with which the track was laid through the first of the Blue Ridge tunnels thus greatly facilitating mails, travel and freights from Buncombe and beyond.

Is North Carolina a State, or a geographical expression? will be asked of members, who contemplate voting to throttle the Cape Fear interest by passing the charter of the Raleigh & Augusta Air Line. There is no need of an answer before 1880, but this is a good time to study as to what sort of an answer should be made.

CONGRESSMAN Steele of the 6th District writes the Charlotte Observer that a competitive examination will take place in Charlotte on Wednesday, the 4th of April for the West Point cadetship from his district now vacant. Winner must be 17 to 22 years of age and sound in lung and limb.

THE Senator from Macon, on Tuesday, took the part of the Rutherfordton ladies, who protested against allowing the "wets" of that old burg a chance to show their voting strength in April. The clever Republican, Eaves, wanted the dry ticket to undergo the ordeal of an election; but Temperance won by 14 to 12.

MR. BERRY, of Burke wants the Commissioner of Agriculture to be elected by the people. Without giving any opinion now on this subject it would seem true as an abstract proposition that if the people can be proven capable of exercising exceptional judicion in the selection of any one officer, it would be this one.

ALL THE intelligence that comes from Washington about the tobacco tax is positively refreshing. We now learn that Senator Withers actually importuned the cold-blooded, high-protective-tariff New Englander, Mr. Morrill, to report the bill to the Senate at once. Morrill said *nix*.

SOUTHERN Democrats who voted away thirty millions to Federal soldiers are now cooly told that the tax on tobacco cannot be reduced without destroying the pension bill. The "soldiers vote" may prove an expensive luxury.

MEN who say the Joint Committee on Retrenchment and Reform are not doing good service to the State simply fail to know what they are talking about. The healthy revival of economy now going on will show itself in 1880.

THE NEWS yesterday received a letter from somebody written in French, Chinese, hog Latin or some other dead and ought-to-be-forgotten language. The only decipherable word in it is "Retrenchment."

IN a hundred years government in "the three counties on the Delaware" there has not been a single example of loss by reason of a breach of faith on the part of a State official.

THE attention of that distinguished pomologist, Mr. Atkinson, of Buncombe, is called to the fact that Raleigh is now eating Northern apples.

ONE HUNDRED and sixty-three citizens of the county of McDowell say through Senator Erwin, that they want no Agricultural nor Geological Department.

MR. TURNER of Orange wants compulsory vaccination. He has perhaps a just alarm of the spread of the Eastern plague.

MR JONES, of Caldwell, wants the Merino Camp Ground incorporated.

THEY give Battle's Revisal no rest in the sole building up street.

What Senator Alexander Says.

From the Charlotte Observer.

Capt. Alexander states a fact which is patent to people even at this distance; that "retrenchment and reform" is the leading idea of this Legislature. It is determined to cut down salaries and fees to the lowest notch, and to spend as little money as possible. For this reason it is doubtful if the appropriation bills which will be brought forward will stand much chance—those for the completion of the Western North Carolina Railroad, and the western and colored insane asylums. Capt. Alexander believes the Legislature will pass a bill establishing the Moffett bell-punch, or a liquor register similar to it in character. He is somewhat doubtful as to the fate of his bill reestablishing the whipping post, and is letting it lie until the session is further advanced. Another of his pet projects is a more efficient road law—a subject than which there is none upon which legislation is more demanded. Capt. Alexander has also perfected a bill to regulate taxation, providing for State and county boards of equalization, &c., which he will endeavor to have acted upon as soon as it is printed.

A Genuine Charity.

From the Oxford Free Lance.

It is simply a crying shame that some help has not heretofore been granted this home of the Orphans of the State, and if the present Legislature permits the session to pass away without aiding the Orphan Asylum at Oxford in some practical manner, at least to the amount of $5,000 per annum.

A Good Endorsement.

Biblical Recorder.

We spent an hour or two in the halls on Friday last, and while very favorably impressed with the honesty and good intentions of the body, we feel perfectly assured that the honor of the State is in safe hands. There are few, if any, orators, but quite a number of good plain speakers, with a strong majority of clear-headed, honest, earnest citizens, principally concerned in doing right. We presume that there will be less of class, job and party legislation done in this body than in any of its predecessors.

Don't Abolish the Solicitors by Indirection.

Goldsboro Messenger.

It is of the utmost importance and to the highest interest of the people of the State that our criminal law should be faithfully and skillfully executed, and where professional learning, talent and hard work are unitedly required in an office it is very bad policy as well as injustice to be over niggardly in the compensation attached to it.

An Opportunity Lost.

Correspondence of the News.

RICHMOND, Va., Jan. 26, 1879.

The State of North Carolina is entitled to $180,000 a year dividend on stock owned by the State in the North Carolina Rail Road. This money has been for seven years diverted by the action of the United States Courts to the pockets of the holders of a part of the State Bonds issued for the construction of the road.

Over a million dollars has thus been diverted from the State Treasury, we have no complaint against the United States Court; the case has been fully argued. The Chief Justice of the United States was on the bench when many of the points involved were decided. It may be assumed thereof, that the case is fully adjudicated and that the holders of the Construction Bonds have a statutory lien on construction mortgage on the three-fourths of the road owned by the State, but while they may not be disposed by any legal means, a compromise might have been made with them during the pendency of litigation by which the State might enjoy at least half of the cash revenues heretofore paid to the bondholders. A few years ago these bonds were worth 30, they are now worth 60. The advance was clearly foreseen by all who knew that the litigation was ended, their legal status having been determined their value depends on the amount they pay, annually, the payments for a few years back have been from 7 to 8 per cent. a year and with fixed dividends under the lease this revenue will continue, and the bonds will settle on the market at the price of other goods seven per cent. Bonds say 80 to 90, but the State may even now compromise with the holders and recover control of the dividends of the road. As the Bonds are now only worth 60, the holders would no doubt accept a five per cent. State bond properly secured, Coupons made good for taxes and the revenues of the road pledged for the interest and principal, under such a compromise the State would receive annual dividends

on three millions of Rail Road Stock at 6 per cent.	180,000
and would have to pay five per cent. on all the Construction Bonds that have thus far come to light which is less than 2,250,000 at 57,	112,500
Balance profit to the State,	$ 67,500

nearly seventy thousand dollars a year saved to the State while if nothing be done until the maturity of the bonds five years hence the Stock will pass finally out of the hands of the State and all control of this valuable property will be lost not only to the State, but from our people, for as the bonds are not held here the policy and management of this inspectant work will be dictated from New York and this State will be but a dependency of Wall Street as are the Western States whose rail roads are owned in New York. There is no time to be lost, the bonds have advanced ten per cent. within a year and by the time the next Legislature meets no compromise will be possible.

The bondholders have everything to gain by a day the State all to lose. B.

Emigration to North Carolina.

Correspondence of the News.

CHICAGO, ILL., Jan. 25, 1879.

Now is the time to encourage immigration. The leading countries of Europe are suffering great pecuniary distress, the effect of which will be to drive out the laboring and business populations, and now that specie payments are resumed, and the hard times are passing away, America is in a condition to invite and receive immigrants. The South is destined to participate largely in the advantages of the coming flood-tide of immigration. The public lands that were good for any thing, east of the Rocky Mountains, and south of the 43rd degree of latitude, are nearly all appropriated by railroad companies, or by individuals; and the effect is to enhance their price far beyond the Government minimum of a dollar and a quarter. Southern lands, more or less improved, can now be had for less money than lands in these North-western States, and the fact should be widely published on both sides of the Atlantic.

I am gratified to find Mr. McLean of Newbern here, engaged in the landable enterprize of organizing a colony of Hollanders, to settle in the fertile district midway between Newbern and Morehead City. He has control of a large body of land there, and his plan is to sell at low and uniform prices. Our land companies have heretofore all made the mistake of exacting a great deal more for lands than they could be sold for to the citizens; and they have always been prompt to raise prices in proportion to the demand. Mr. McLean informs me that he will avoid these suicidal mistakes. The next census will reveal the fact that North Carolina gains more population during the current decade than in any former period of ten years; and more in proportion, than it has gained in any decade since 1820. The cessation of emigrations from the State is the best possible evidence that the country is improving, in wealth, as well as in numbers. While the fact is patent that our towns have grown more in population, business, and in wealthy in the period named than in the half century which preceded

I am very respectfully,

As no evidence of their marriage was found in the county where Lincoln's parents lived, the conclusion was jumped at that they had not been married at all."

American State Pride.

A correspondent of the London Times, writing about Minnesota, incidentally says: Each State, from rugged Maine to sunny Florida, and from imperial New York to golden California, considers that no other one rivals or excels it. The citizens of each speak as it they had been placed by a kind Providence on the most favored spot of the whole earth, and they regard the stranger who doubts whether their good fortune be wholly exceptional as a person who is utterly ignorant and inexcusably prejudiced. Indeed a new comer will ingratiate himself the most easily with the citizens of a particular State if he can look upon all others for the time being through their spectacles. His wisest course will be to copy the example of the Frenchman ridiculed and stigmatized by the late Gen. Sir Charles Napier. That renowned soldier and eccentric man entertained the conviction that all Frenchmen are hypocrites, and he illustrated this harsh and ungenerous opinion by saying: "If a Frenchman were to go to hell he would put on an overcoat, compliment the devil on the fineness of the climate, and add that, if anything, it was rather chilly." I once said something to a Pennsylvanian, alike laudatory and merited, with regard to his State. He accepted the compliment as a matter of course and replied: "That's so; Pennsylvania is best in everything." Travelling in Colorado shortly after the late total eclipse of the sun, I remarked, in the presence of several citizens, it was fortunate that the weather had been so favorable there for the purposes of observation. One of them told me in reply; "Sir, Colorado can beat the word in eclipses as in everything else." These instances might be multiplied. They all exhibit that pride in one's State which is as notable a characteristic of a United States citizen as pride in his country. When Capt. Basil Hall traveled in North America he bitterly complained of the pertinacity with which every one demanded his opinion about it, and of the extreme annoyance which was manifested if the reply were not unreservedly complimentary. It is far less common now than in by-gone days for a stranger to be questioned concerning his view of the Republic as a whole, and to be expected to draw a flattering comparison between it and what the ignorant call the effete monarchies of Europe. It is far more probable that he will be asked by the citizens of one State what he thinks of another, and then, unless he display a little of that French politeness which Sir Charles Napier detested, he will give as much offense as Capt. Basil Hall gave when he denied that the United States were the only land worth living in.

FOR

CHILLS, SHAKES,

FEVER AND AGUE.

TARBORO, N. C., 1878.

DR. H. R. STEVENS:—

Dear Sir,—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sick with measles in 1873, which left him with Hip-Joint disease. My son suffered a great deal of pain, all of the time; the pain was so great he did nothing but cry. The doctors did no help him a particle, he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the "Louisville Courier-Journal," that Vegetine was a great Blood Purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eighteen bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a younger son, fifteen years of age, who is subject to chills. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and that is the last of the Chill. Vegetine leaves no bad effect upon the system like the most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints. I think it is the greatest medicine in the world.

Respectfully, MRS. J. W. LLOYD.

VEGETINE.—When the blood becomes lifeless and stagnant, either from change of weather or, of climate, want of exercise, irregular diet, or from any other cause, the Vegetine will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

Druggists' Testimony.

Mr. H. R. Stevens:—

Dear Sir,—We have been selling your remedy, the Vegetine for about three years, and take pleasure in recommending it to our customers, and in no instance where a blood purifier would reach the case, has it ever failed to effect a cure, to our knowledge. It certainly is the ne plus ultra of renovators.

DAILY NEWS
THURSDAY, JANUARY 30, 1879.

A Distracted Parent.

THE POST SHOWS HOW THERE MAY BE SUCH A THING AS TOO MUCH LOVE IN THE HOUSE.

[From the Albany Times.]

Five daughters—four of them engaged—
Good heavens! I shall go mad!
For such a surfeiting of love
No parent ever had.
The very atmosphere is charged
With it; no matter where
I go about the house I trip
Upon some whispering pair.

At evening, when I take my pipe
And seek a quiet nook
To read the Evening Times, or
Some new and tempting book,
I ope, perhaps, the parlor door,
When a familiar sound,
Quite unmistakable, suggests
It is forbidden ground.

So then more cautiously I turn
To our reception room;
But lo! again upon my ear
From its romantic gloom,
Comes softly, yet with emphasis,
That warning, when I start
And I have, as Lady Macbeth wished
Her guests would all depart.

My next resort is then the porch,
Where roses trail and bloom;
Ha! is it echo that betrays
The joys of yonder room?
Ah, no! a startled "change of base"
Reveals the presence there
Of Cupid's votaries, and, alas!
There's still another pair.

"But sure," I think, "my library
Will be a safe retreat,"
So there at once with quickened step
I take my weary feet.
Vain hope—that warning sound again
Breaks on my listening ear;
Thank heaven, my youngest hath not yet
Attained her thirteenth year.

Hark! there she is! and bless my heart,
That popinjay young Lunn,
Is at her side—I do believe
That she, too, has begun.
Oh, ye who love to sit and dream,
Of future married joys,
Pray heaven with honest fervor that
Your girls may all be boys.

The works of Darwin are more popular in Germany, it is said for the purpose of university education than in Great Britain. The theory of natural selection has taken firm root in the intellectual soil of Germany, and by many thousand educated people of that country Darwin's name is held in as much honor as that of any great philosopher in their own land. The works of Professor Owen are also greatly esteemed in Germany. In many of the universities they are used as text books having been translated into High-Dutch by scientific men of learning and repute. It is a marked testimonial to this reverence for Darwin and Owen that the Berlin Academy of Sciences should have just elected them unanimously to membership, and that the Emperor should have promptly confirmed the election. This society is the most severely critical and exclusive body of savants in Europe. Few Englishmen are members of it. Carlyle, almost alone among his contemporaries, by his labors in behalf of German literature and history, gained for himself a place among these thirty Knights of Art, Science and Literature.

It Might Have Been.

When taking a retrospection of our past lives, how often does conscience whisper to broken spirits and wounded hearts the sad, sad words. "It might have been?" THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. MCLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. MCLANE'S LIVER PILLS.

The genuine MCLANE'S LIVER PILLS bear the signatures of C. MCLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. MCLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

LIVER

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one-third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on. $10,000 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Prussic Acid, can be found in the GLOBE FLOWER COUGH SYRUP, which has cured people who are living to-day with but one remaining lung. No greater wrong can be done than to say that Consumption is incurable. GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Colds, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga., Hon. Geo. Peabody, as well as those of other remarkable cures in our book, free to all at the drug stores, and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP. BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. DR. PEMBERTON'S STILLINGIA or QUEEN'S DELIGHT is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer.

$10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.

Price by all Druggists $1.00.

DAILY NEWS
THURSDAY, JANUARY 30, 1879.

News Telegrams.

Congress.

WASHINGTON, Jan 29.—The House again discussed the Postal Appropriation bill. Among amendments adopted was a provision requiring that no deficiency shall be made during the next fiscal year by placing postal cars on any line. Amendments also adopted increasing the appropriation for route agents, increasing the appropriation for transportation on star routes, for railroad transportation and for steamboat transportation.

The Senate to-day passed a number of bills granting pensions. Among them a bill granting fifty dollars a month to the widow of the late Gen. Robert Anderson and another increasing pension of Dr Mary E. Walker to $20 per month. Edmunds' resolutions in regard to constitutional amendments will be discussed to-morrow, when Morgan, of Alabama is entitled to the floor to speak on the substitute and resolutions recently submitted by him.

Senator Christiancy, of Michigan, to-day was nominated and confirmed as Minister to Peru.

Henry Page, of Arkansas, was confirmed as Indian agent.

The Potter Committee.

WASHINGTON, Jan 29.—In the Potter Committee to-day, Assistant Postmaster General Brady, produced cipher dispatches sent by Judge Tyner to Tallahassee. Brady's replies to Tyner were addressed "John Wing," Washington. They reported the progress of the Republican party in the Florida election and contained little of present interest. Tyner produced cipher telegrams to Foster and Chandler, and stated their contents had reference to inducing Greenbackers in Indiana to go over to the Republican ticket, and to purchasing the Indianapolis Sentinel, the Democratic organ.

The money asked for was intended for legitimate campaign expenses and was provided by the National Republican Committee. "Early" meant $10,000 and "certain" $5,000. In Secretary Chandler's dispatches "appoint two Indian agents" meant send ten thousand dollars and did not refer to any appointments. To-morrow Whitelaw Reid, editor Tribune, Judge Southwood and St. Martin will be called.

William T. McLellan assistant chief of warrant division of the Treasury, stated that he was in Washington in seventy-six and in consequence of a letter from Secretary Sherman, attended in the Morton Committee room to examine the Oregon Cipher dispatches. He was there two days and succeeded in deciphering them by means of a "dictionary key" with which he had been provided. He recognized nos. 10, 12 and 14 on page 37 of Tribune pamphlet and no. 10 on page 38 as part of those dispatches. The committee were not in session at the time he made examination, but other experts were at work on the dispatches. He knew nothing of the Florida dispatches—only saw a few and was unable to decipher them, because the key had not then been discovered. The Committee then took a recess.

Socialist, Communist, Nihilist.

NEW YORK, Jan 29.—Some of the morning papers publish full text of Pope Leo's encyclical letter. Said to have been written by the Pontiff himself, and the London Standard's Rome correspondent says it is a great subject of discussion to-day. Much of it gives reason to believe that there is to be a great change from Pius IX policy. Socialist, communists and Nihilist are anathematized as a death dealing plague that is creeping into all the fibres of human society.

National Affairs.

NEW ORLEANS, Jan. 29.—Marshal Wharton continues making arrests in various parishes of parties against whom true bills are found by the U. S. grand jury for violation of the election laws. Seventy-nine prisoners are expected to arrive to night in charge of Deputy Marshall. It is tated, taat one hundred more will arrive in the next few days.

Sherman at Atlanta.

ATLANTA, GA., Jan. 29.—Gen. Sherman and party arrived to-day. It is his first visit to this city since the war. Several thousand people congregated at the depot where they went out of curiosity. There were neither cheers nor signs of disapprobation. The party will attend to-night a ball given in their honor at McPherson barracks.

Who Elected Matt Carpenter.

Milwaukee (Wis.) Sentinel,

Matt Carpenter's election to the United States Senate was brought about by ten anti-machine republicans. They turned in for him as the least obnoxious candidate, and expect Mr. Carpenter to seize the opportunity to make a new departure in politics; to become not simply "the brilliant representative, but the wise, safe and able leader," by "freeing himself utterly from the politicians who have heretofore largely influenced him, and who look upon the spoils as the aim of party organization."

1880

Hamilton Fish in N. Y. Tribune.

If the convention were held to-day Gen. Grant would be nominated. There nearly two years yet to come before the convention, and many changes may happen. I can say to you," said the secretary, "that Gen. Grant does not want to run again.

Grantism.

Washington Republican.

General Grant has lately written to a friend in this city. "I see they are hammering away at the army again. There is no peace for the army except in time of war."

TO MY FRIENDS AND PATRONS:—The Equitable Life Assurance Society, of New York, than which no Society or Company in America is more reliable for its contracts or offers greater inducements for patronage, has been negotiating with me for some time to take the management of its affairs in North Carolina. I have just returned from New York with a contract mutually satisfactory, and will as soon as practicable visit every county in the State to solicit business and plant Agencies where none exist, and I most earnestly and respectfully invite all persons wanting life policies, or holding policies with which they are dissatisfied, to communicate with me before applying elsewhere, as they can secure a policy through me or my agents on better terms. The Equitable was organized in 1859, has $35,000,000 assets, its income in 1877 was $8,500,000 and it has a surplus exceeding all liabilities of $7,000,000 to back its promises. By its Tontine Plans a handsome income may be secured in this life, besides the provision at death for the assured's dependants. The assured may reside and travel in any part of the United States.

Bargains he'll give you when you call
For No. 10 is all and all,

And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades.
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adornyour forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue.
His window cornices and lambrequins fine,

Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids your all adieu
And wishes a happy new year too.

The Death Rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee's German Syrup been taken, a cure would have resulted, and a large bill from a Doctor been avoided. For all diseases of the Throat and Lungs, Boschee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950 000 bottles sold last year without a single failure known.

A Legitimate Triumph in Medicine.

Dread and despair fall upon the community when a terrible epidemic, like the cholera or yellow fever, suddenly desolates our homes yet, all the while more insidious, but no less fatal foe, enters thousands of households every year and carries off the flower of the family in the early flush of manly youth and budding womanhood. People call it presumption, or "decline." It is not, in most cases, the tuberculer phthisis or consumption of the lungs, which is the peculiar malady in climates like those of the British Islands and New England, but a general decay or arrest of the vital processes of nutrition All the doctors agree that there is no remedy for this but COD LIVER OIL but they are constantly met by the obstacle of inability on the part of the patient to swallow or retain it. This repulsion is entirely overcome by SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA which is agreeable to the taste and an unequalled nutrient and tonic for the body nerve and brain.

The Value of Pure Wine in Sickness.

The chief difficulty with reliable wines has been the scarcity and exorbitant price, but this has been removed by the introduction of a Pure Native Wine, produced from the Oporte grape by Mr. Alfred Speer, of New Jersey. We understand he has submitted his Wine to the test of many of our celebrated physicians, and all concur in its purity, medical properties and superiority to the best imported Port Wine. Most of them prescribe it in cases of debility, affections of the kinneys and chronic complaints, requiring a tonic, sudorific or diuretic treatment.—Examiner. Salesroom 34 Warren street, New York.

NEW FIRM!
W. B. MANN & CO,
Having formed a copartnership under the above title, and taken the stand formerly occupied by B. H. Woodell, No 4 Hargett street, we intend to carry a full line of Groceries and Provisions, as well as a complete stock of Boots and Shoes, Dry Goods, Notions, Hardware, Cutlery, &c., &c.
Buying our goods at bottom prices for cash, we are determined to offer inducements to our customers, unsurpassed by any house in Raleigh.
Give us a trial and be convinced of what we say.
Very respectfully,
W. B. MANN & CO.

Having sold out my entire stock of goods at the above stand to Messrs. W. B. Mann & Co., I take pleasure in recommending them to the public for a liberal share of their patronage, believing that their confidence will not be mis laced.
I shall in future devote my time to a General Commission business, and can be found at my office in the Prairie Building on Wilmington Street.
Thanking a kind public for so liberal a patronage for five years past, I hope they will not forget me in future, and give my successors as much of their patronage as they possibly can.
Very Respectfully,
B. H. WOODELL.

The Kentucky State Lottery has, during its existence, paid more money in prizes than any lottery, domestic or foreign, whose tickets are sold in this country. Its drawings take place twice a month, under sworn Commissioners of the State, and are published in the N Y HERALD, STAATS ZEITUNG, and LOUISVILLE COMMERCIAL AND ALL OUT-OF-TOWN TICKET HOLDERS ARE EMAILED A COPY OF THE OFFICIAL DRAWING as soon as received. All prizes are cashed, without deduction on presentation, and no one outside of the winners are made aware of the fact of their being richer by thousands of dollars than themselves for we will not, under any circumstances, publish the names of persons drawing Capital Prizes, for the purpose of drawing custom to our lottery
